H.30 EXPERTISE PREMIUM ON MINIMUM WAGE RATES (AMQ-340 DEC 2001)

- a. This clause defines and establishes a fixed-pricing methodology for variable levels of expertise within contracted service categories to be provided when required under the contract. When competitive contract prices are based on minimum-wage rates, there will probably be requirements for services under the contract where the level of or a unique expertise required to accomplish the service cannot be acquired in the labor market at those minimum wage rates. Whenever a negotiated wage rate results in a price in Part I, Section B of this contract, that is insufficient to obtain the level of expertise required by a specific task/category under the contract, the Contractor agrees to seek and price the required expertise at an hourly expertise premium. Expertise premium proposals must include supporting documentation for the premium. No commitment for the FAA to pay premiums exists until premium expertise is ordered under the provisions of this clause.
- b. An Expertise Premium is a computed hourly premium that is applied to a specific contract labor category, in order to acquire a specified level or unique of expertise beyond the occupational category expertise indicated in Department of Labor (DOL) Directory of Occupations. Pricing of the Expertise Premium is fixed by the formula below, but may be applied over a variety of service categories and tasks requirements. The premium will be applied only to the hours ordered and utilized that require the specified expertise.
- c. Expertise Premium hours shall only be ordered when the Government determines that the value of the hourly premium can be derived from the price of the expertise. Expertise Premium hours in long-term or recurring tasks may be discontinued and shall be verified at reasonable intervals by the Government. The Government may reduce or eliminate hourly expertise premiums ordered based on changes internal or external to Government requirements without such reductions being considered a termination action. Only a written task performance/work statement issued by the Contracting Officer that quantifies (hours) and specifies the level of expertise required above the contract's generic category/skill specification authorizes Expertise Premiums.
- d. The formula for computing the Expertise Premium (EP) for the specific Labor Category to be used is the difference in the contract hourly wage rate (CHWR) and the wage rate established in the labor market for the required level of expertise (MEWR) multiplied by the contract Expertise Premium Burden Factor (EPBF) [EP = (MEWR - CHWR)*EPBF]. Note that the Expertise Premium Burden Factor is not the same as the labor-hour burden. Employee-based benefits (insurance, etc), project overhead and full G&A are not included in Expertise Premium Burden Factor, because such costs are

to be recovered in the underlying basic service hour that carries the full overhead load. The Government will verify proposed expertise wages in the market, negotiate accordingly and apply the agreed Market Expertise Wage Rate (MEWR) to compute the Expertise Premium.

e. This is an example of the use of an Expertise Premium:

Flight Ops Assistant CLIN (General Clerk II Occupational Category) pricing is based on a DOL determined minimum rate of \$9.11 per hour, with the expertise level defined as "Little or no subject-matter knowledge required..." [Service Contract Act Directory of Occupations, 4th Ed.] A contract task requires the Flight Ops Assistant to do General Clerk II duties that require knowledge of aviation operations. Similar services of Clerk II's with subject-matter knowledge in aviation, medial or law are paid \$9.50 to \$10.55 per hour in the local business community or on other Government contracts. Due to the uniqueness of the subject-matter knowledge involved, a negotiated MEWR of \$10.25 is negotiated. For a contract EPBF of 1.2, the expertise premium applicable to the Flight Ops Assistant (or other Clerk II services requiring subject-matter knowledge) on this contract is \$1.37 per hour [(9.11-10.25)*1.2]. To the extent that other increments of expertise could be quantified and priced in this service category, differing expertise premiums would be calculated as required.

PART I - SECTION B
